

The information here is provided for your convenience; classes are subject to change. Please speak with a [Geology major adviser](#) for the latest information on a geology major study plan. These are just major classes, so be sure to check MyDegree.ucdavis.edu for any additional degree requirements, including General Education and your College English Composition Requirement (UWP 104E is recommended).

Classes in italics must stay in the quarter they're listed, although not always in the year listed.

The following classes are recommended for those who intend to pursue graduate degrees but are not necessarily required for the Bachelor of Science degree in Geology: MAT 21D, MAT 22A, MAT 22B, PHY 9D

5/30/2018

Transfer Option 2: Field Geology in the Summer after Senior Year

Academic Year	Fall Quarter	Winter Quarter	Spring Quarter	Summer
Junior <i>Petrology series</i>	<i>Geology 60: Earth Materials (4)</i> <i>Geology 62: Optical Mineralogy (2)</i> Statistics 32 or 100 (4) Total: 10 units	<i>Geology 105: Igneous Rocks (4)</i> Upper Division Geology Elective (3) Upper Division Geology Elective (3) Total: 10 units	<i>Geology 106: Metamorphic Rocks (4)</i> Geology 107: Paleobiology (3) Geology 107L: Paleobiology Lab (2) Total: 9 units	
Senior <i>Structure series</i>	Upper Division Geology Elective (4) Upper Division Geology Elective (3) Total: 7 units	<i>Geology 101: Structural Geology (3)</i> <i>Geology 101L: Structural Geology Lab (2)</i> <i>Geology 109: Sediments and Strata (2)</i> <i>Geology 109L: Sediments and Strata Lab (2)</i> Total: 9 units	<i>Geology 103: Field Geology (3)</i> <i>Geology 108: Paleoclimates (3)</i> Upper Division Geology Elective (3) Total: 9 units	<i>Geology 110: Summer Field Geology (8)</i> Total: 8 units
